MEMORANDUM FOR THE DIRECTOR, INTELLIGENCE COMMUNITY STAFF

SUBJECT: Nominations for the Intelligence Community Staff (ICS)  
Position of Chairman of SIGINT Committee Staff

Reference: Your Memo BYE 1464-88, same subject, dated 3 Feb 88.

STAT

1. I appreciate the opportunity to comment on nominations for the SIGINT Committee Chairman. I would urge the new Chairman to establish a sharp, problem solving agenda to include: modern policies for data handling, release to allies, and integration with all-source wartime-ready data bases; routine collection progress evaluations; and new collection systems assessments.

2. The background of [redacted] as profiled in the enclosure to your memorandum, suggests he has the experience to lead the Community in improving the SIGINT contribution to some important all-source intelligence problems.

STAT

3. DIA will fully support the new Chairman and would welcome the opportunity to help establish a new set of vectors for the SIGINT Committee.
